DESIGN / WEB DEVELOPMENT PROJECTS

pawed App

Personal Project

March 2024

- Developed an application using React that allows users to create accounts, create daycare pages with boarding information, and book a daycare with pet and owner information
- Implemented AWS Amazon S3 to store pictures uploaded by link or file
- Built an API with MongoDB and used Vercel to deploy the API and Client for the application
- Designed the client side of the application using Tailwind CSS

Google Keep Clone

Personal Project

Jan 2024

- Developed a Google Keep Clone application with Svelte and TypeScript
- Designed the application's interface using Tailwind CSS
- Implemented Firebase, a cloud-hosted database to store notes provided by users

WORK EXPERIENCE

Grinnell College

Program and Communications Coordinator

Grinnell, Iowa

Oct 2023 - Present

- Oversaw daily operations of the Center for Careers, Life, and Service at Grinnell College
- Maintained and oversaw the center's Drupal website, and their UConnect website
- Collaborated closely with UConnect technicians in debugging, feature implementation, website maintenance, and managing add-on modules
- Assisted career community teams with data collection, logistics, web presence, and marketing

Fusion Education Group
