WEB DESIGN / DEVELOPMENT PROJECTS

pawed App

Personal Project

Mar 2024

- Developed an application using React that allows users to create accounts, create daycare pages with boarding information, and book a daycare with pet and owner information
- Implemented AWS Amazon S3 to store pictures uploaded by link or file
- Built an API with MongoDB and used Vercel to deploy the API and Client for the application
- Designed the client side of the application using Tailwind CSS

Going Forth Podcast App

Professional Case Study

Jan 2024

- Developed a case study for a planned podcast mobile app for the Center for Careers, Life, and Service
- Designed the application's mock-ups, user flows, and a final case study using Figma and Illustrator
- Implemented and adhered to Grinnell College's brand guideline standards

WORK EXPERIENCE

Philadelphia College of Osteopathic Medicine

Teaching Support and Professional Development Coordinator

Suwannee, Georgia

Aug 2024 - Present

- Maintained and supported the college-wide use of ExamSoft in all three PCOM locations
- Developed general training materials for Exemplify, ExamNow, ExamScore, and ExamMonitor
- Collaborated with ITS in providing ExamSoft and BlackBoard admin and faculty support
- Served as ExamSoft Institutional Administrator responsible for creating departments, assigning primary Department ExamSoft Admins, and syncing courses with Blackboard

Grinnell College

Program and Communications Coordinator

Grinnell, Iowa

Oct 2023 - Jun 2024

- Led the design and mock-up of a podcast app for the Center for Careers, Life, and Service
- Maintained and oversaw the center's Drupal website, and their UConnect website
- Collaborated closely with departmental communities to create newsletters, and promotional material adhering to the college's branding guidelines

Fusion Education Group

Design and Electives Teacher/ Mentor

Alpharetta, GA

Feb 2019 - Jun 2023

- Guided students in developing their skills in design principles, typography, layout, image editing software, and other relevant tools and techniques
- Taught a variety of designing and editing software from Adobe, including Illustrator, Photoshop, Premier Pro, InDesign, and Lightroom
